The Garrote. This is a Spanish death punishment, and

its use has been exclusively confined to countries of Spanish origin. In Mexico it has tries of Spanish origin. In Mexico it has long been employed in the punishment of State crimes, such as treason and insurrection. It is said that under the Presidency of Santa Anna, more victims sufferd by the garrote in the secret chambers of the Na-tional Palace, or in the main prison near the Almeda, than during the preceding presidencies. Lopez, the ill-fated leader of the late Cuban expedition, perished by this in-

trument.

Execution by the garrote is inflicted in this manner: The criminal is seated in a chair, the back of which is placed against a chair, the back of which is placed against a post firmly set in the floor or ground. His hands are bound to the chair, and the back of his head, with his neck bare, is put against the post. To this post is attached a collar of iron, an inch or two in width, and of suffigient circumference to encircle the neck .-The collar—one end being fastened to the post—is then fitted close to the neck of the victim, while the other end, containing a series, is brought to the opposite end of the containing the containing a series. post. Being adjusted, the screw is turned, and as each turn compresses the collar more tightly, strangulation follows. In some instances, in the centre of the collar, and directly under the chin of the sufferer, a and directly under the cum of the suiterer, a sharp steel point or blade is affixed, which penetrates the neck with every turn of the screw. This feature is seldom used, and generally the body after death bears no mark or trace of blood. The opperation by the garrote is almost instantaneous—being, in this respect, more merciful than the gal-lows.

The English Newspapers, as well as those in different parts of this country, contain numerous reports of assaults on persons, where the means of violence used are classed un-der the name of the 'garrote.'

ORIGIN OF THE PHRASE "UNCLE SAM." ORIGIN OF THE PHRASE "UNCLE SAM."
—Mr. Samuel Wilson died at Troy, New
York, 31st July, 1854, aged 88. It was
from this gentleman that the United States
received the name of Uncle Sam. It came
in this way; Mr. Wilson had extensive
contracts for supplying the army with pork
and beef in the war of 1812. He was then
familiarly know as Uncle Sam. His brand
upon his barrels was of course U.S. The
transition from United States to Uncle Sam
was so casy, that it was at once made, and was so easy, that it was at once made, and the name of the packer of the U. S. provis-ions was immediately transferred to the government, and because familiar, not only throughout the army, but the whole country. -New Eng. Historical and Geneological

THE SUPREME COURT.

Never since the foundation of our State, has our highest judicial tribunal been better organized than at the present time. No person who heard the late learned and able opinions of this Court, delivered on the second day of its late Term in this county, who had any State pride, but what felt proud of those oninions. One of them was given in an Equity cause, when the fraudolent eruduct of the assigness of an insolvent debtor, in endeavoring to divert the assigned property from the creditors to their own uses, was sought out and exposed, and by the decree of the Court the property was directed to be summed up for the benefit of those who were justly entilted to it .--Another was upon those abstruce questions, that sometimes arise out of the conflicts of the laws of different sovereignties, and in which the humane doctrines of the Courts of Rhode Island in relation to jurisdiction in cases of divorce, was vindicated in a masterly maner, against an attack from the Supreme Judicial Court of Massachusetts.

These two opinions alone are worth more to the neonle of this State than a year's salery of all the judges. The first contains a practical admonition to all debtors and their confederats, against entering into fraudulent transactions to defraud creditors. The other, will operate as a caution to the Courts and judges of other States to beware how they attack the decisions of the Supreme Court of this State, and both opinions will be read as authority, when all of us who live in the present generation shall have pass ed away. We baxard nothing in saying that no Term of this Court has ever been held in this county when all its doings were so gratifying to the public as the one, now recently brought to a close. The clear good gound and manly independence of the associates, are only equalled by those transcendent abilities which have placed the Chief Justice among the first jurists of the conntry. Whatever may have been said in time s past of our Judiciary, Rhode Island people now will be proud of their Supreme Court, and this, notwithstanding the attempts made upon it, and upon its equity jurisdiction, by one who was among the first to in yoke its aid, in one of the most extraordinary cases over which, equity powers confer jurisdiction, JUSTICE.

A Vast Structure.

The people of St. Louis, Missouri, are about to bridge the "Father of Waters," on a grand scale. At present there is but one bridge over the Mississippi, the Rock Island Rail Road bridge, which rests on an island in the middle of the river, and on two stone piers in the channel. At St. Louis however the commercial interests are too important to premit the construction of piers, and consequently it is in comtemplation to build asuspension bridge with a span of 1600 feet resting upon solid stone towers 242 feet in height, the floor of the bridge being 122 feet above low water mark! The cost is estimated at \$1,500,000. We can form some idea of the size, and cost of this work by comparing it with the far famed "Niagara bridge" which is 820 feet long, and cos; \$350,000 only. No enterprize seems too great for our enterprizing Western friends, and if we could only infuse a little, just a very little of the same spirit into our "foss sils" hereabouts, immense good would result from it.

We understand that several hundred o Newell's Lithograph Views of Newpor have already been disposed of and Mr Newell intends visiting Providence, New York, Fall River and other places where he will doubtless meet with a ood suggester.

Thering his all sense persons withing to produce these Prints can do so by calling at his residence No. 87 Thomas at.

A City Music Hall.

It must be obvious to every one, who attended the late concert of the "Musical Institute " or at the "Philharmonic Society," that we greatly need a suitable music hall, a large, well constructed room, well lighted, heated, and ventilated where 2000 people can sit for two hours without being subject to inconveniences of a jam, or to the unhealthy influences of impure air. It is of great importance to our people, now that they are developing a taste for a high order of music, that they should have a suitable audience room, furnished with a fine organ, and constructed expressly for the purpose. We know that there are many of our residents who would be glad to contribute to so good an object, and who only await the opportunity, we therefore suggest that several of our musical citizens might call a meeting to consider the matter, perhaps to appoint a committee to estimate the cost of constructing such a building as is neededcomplete, with organ, &c. Or what is still better, the two musical societies might take the matter in hand, and we doubt not but that their efforts would be heartily second-We need a hall, and need it now .-Whether it is built by a stock company or a society is comparitvely of little moment, but the need is a great one and we should use a little more energy in the matter than we "Islanders" are prone to.

In order properly to bring our people under the blessed influence of Music, we the ought to have a concert once a week t broughout the winter, and an average profit of \$30 a week would pay 10 per cent interest on the probable outlay. That this sum would fall far short the actual profits there can be no doubt, because if properly located it would be constantly used in winter for lectures &c. and in summer for the concerts and lectures that are given during the season.

EARTHQUAKE IN ASHTABULA.—The Ashtabula papers say that on last Friday evening, about 8 o'clock, many persons in that county observed a decided trembling of the ground, which shook houses, windowglass furniture and crockery. We have seen a ground, which shook houses, window gass a brivate letter from Mr. James Jenkins of Lennox to his son in this city stating the same facts. The appearance of the snow in the fields the next morning gave striking evidence of the commotion. The snow had evidence of the commotion. The snow had been tossed about in divers directions, and by a motion which gave it the form of large snowballs. Persons in other localities on the lake shore remarked a similar shock but it was not sufficiently severe to attract much attention.—N. Y. Tribune.

At Millerstown, in Grayson county, Ky. on Thursday last, a desperate affray occur-red between Mr. Hysen and Mr. Markham, two prominent citizens of that town. They met in a saw mill, and had some difficulty about some lumber. HYSER gave the lie to MARKHAM, whereupon the latter throw a bondful of saw-dust in HYSER's face; and being still further aggravated, threw a whet-stone at him missing his aim. HYSER then HYSER then struck Markham over the head with a bar of iron, making a severe wound across the temple. A scuffle ensued, and the parties were seperated. But as HYSER was leaving the mill, MARKHAM seized a lever, and threw it with such force as to break four of Hyser,s ribs. On Saturday morning both parties were thought to be dying.

COUTERFEIT. - A dangerous counter feit has been detected at the Boylston Bank of a ten dollar bill on the Freemen's Bank. Boston. It is a bill probably of some ex-ploded bank, the name of which has been effaced and "Freeman's" introduced. The name of Solo, Piper, President, and Jeremy Drake, Cashier, are said to be good imitations. The above was passed on a merchant at the south end, and more of them, it is thought, may be in circulation.—Boston

THE STONINGTON RAILROAD.—At a meeting of the New Haven and New London and Stonington Railroads; held at Saybrook, It was voted to merge the two companies under the name of the New Haven, New London and Stonington Railroad Company, and to build the Storington connection at once. For this purpose, \$25,000 have been already subscribed. The road will cost \$200,000, and when finished will furnish an admirable through route to Boston.-New Haven Courier,

DAVIS' PAIN KILLER.

DAVIN PAIN KILLER.

Brooklyn, Conn., June 15, 1854.

Tolen Davis — Although a stranger to you, I take the liberty of addressing a few lines to you, for the purpose of saying a few words in favor of your rivaluable medicine. I have used your Pain Killer for a number of years, and for bowel complaint and burns, and in fact for pains of all kinds, I think it pre-eminent. Before I became acquainted with your medicine, I had a violent attack of dysentery, which reduced me very low, in fact my friends thought I could not survive, but by the treatment of a Botanie Physician, the heat remedy I then knew, I recovered. Since then, I have bad several attacks, one very violent, shout four years ago. I was attacked at 3 three o'clock in the morning, and at sunrise, I was not able to get off my bed, I sent and get a twenty-sive cent bottle of your Pain Killer, which I commenced taking, according to directions, and at six u'clock in the evening my bowels were regular, and I was up and moving about, although suncewhat weak. I would recommend to all similarily afflicted, to avail themselves of your invaluable medicine.

Tam sir, yours respectfully.

I., which, with the furniture, was entrely destroyed by lire on the night of 5th the June last. The Safe, where being exposed to an intense heat for many hours, was recovered on the 10th of June. Not having the necessary tonls at hand to open it, the same has stood just as when recovered, until shipped to your address, Nov. 1st. When opened at your store this morning, I was agreeably surprised, as were also others present, to find the contents, consisting of valuable sliver plate, &c., in as perfect order as when placed therein. It is with pleasure I add my testimony to the merits of the Safes of your manufacture. Yours, Respectfully,

COTTERIES.—The well known Mary France & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honerable remove and that the interests of parties who manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attenthey themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day in the mouth. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from \$1,00 to \$20.—No tickets however, sent unless the monmoney for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havann plan), and Ternary combination. Prizes vary in amount from \$20 to 1000,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over. Address T. HUBBARD & Co.

BROWNELL'S VENTILATOR.

PATENTED, SEPT. 16, 1806.

SIR:— Herewith you are presented with a list of sizes with the price of each annexed, of BROWNELL'S PATENT VENTILATOR for all purposes where ventilation and a strong draft are required; and are particularly designed for RAIL ROAD CARS, PUBLIC BUILDINGS, SNOKEY CHINNIES, and CABOOSE and CAINS PIPER.

The advantage proposed by this ventilator over all others is, it gives a uniform draft to a chinney, and at the same time excludes water thus doing away with two great evils—a back draft and drippings down the chinney. The arrangement of the ventilator is very simple; it can be easily adjusted to any use for which

THE GREATEST WONDER OF THE AGE.

A REMEDY which CURES IN FIVE ANINUTES—M. LEROUX'S French is considered to general bitters. This truly wonderful scientific compound is recommended by the most eminent and learned physicians of all Europe and America, and enjoys the best reputation of anything similar ever offered. It is without doubt, the best most efficient and generally acknowledged remedy against cholors, dysentery, diarrhead, and complaints of the stomach in general. The numerous patients who have tried it necording to directions have invariably found relief in a very short time, and the best proof of it is, that since this standard remedy was introduced in the armies of the Allies in the Crimea, the mortality of the soldiers from cholera and similar diseases was diminished by over 75 per cent; in consideration of which, the inventor was presented by the French and English governments with a gold medal, bearing the inscription, "Hail! M. Lornux, the great cleminist and in-

sideration of which, the inventor was presented by the Prench and English governments with a gold medal, bearing the inscription, "Hail! M. Leroux, the great chemist and inventor, by whose knowledge our armies are preserved from chalter." This invaluable preparation is also a remedy for billiousness, indigestion, weakness, and general derangement of the stomach. Upon being taken, it creates appetite, and prevents the heaviness attendant upon cating by persons who are dyspeptic.

In this city, also this remedy has been tried with the most unduabted success, and the undersigned can produce the best testimonials of our most echebrated physicians, as to its incidiate and complete success, which he will be happy at any time to show to any that may wish to see them.

as a spinious interaction as a spinious interaction, as a spinious interaction and valuable improvement in applying insulators by which the glass is kept dry, causing no leaks in roofs of buildings, and effectually preventing the electrical fluid from being conducted by iron serrows and drives into the seam.

The following recommendations have been furnished gratuitously:

Louisville, Jan. 27, 1851.

The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of these rods may become general as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable. B. SILLIMAN, Jr.

Prof. of Chem. in the Univ. of Louisville

This will certify that I have examined the Lightning Rods, Metallic Points, and Insulating Attachments, manufactured by Mr. Spratt, of Cincinuati, Ohio, and regard them as constructed in conformity to the general laws of the electric fluid; and the Gilded Copper, Branched Points, as promising, from the results of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them. The Greatest Discovery of the Age.

PROFESSOR WOOD offers for sulc perfect HAIR RESTORATIVE. It: in a short time restore the Huir, which ha become gray prematurely, to its original colo—bring it out where it is gone, and arrest when it is falling off—cleanse the head of dandraff and itchings—remove all cutancous ecuptions, and render the scalp perfectly healthy, by restoring the secretive organs to their original vigor and strength, and thus supply nutriment and coloring matter to the roots. It does not bye the hair, but is, in short a perfect Hair Invigorator and Tonic.

To the young, who so much admire the beautiful locks and ringlet, he feels that he will be pardoned if he offers the advice suggested by long study and extensive observation. It is to discard all cologne and stimulating olfs for the lair, and keep always upon the toilet a bottle of the Restorative for occasional use and we can safely predict, that henceforth silver locks will be upon hald heads. Let the dark eye be ever so piercing,—and the teeth be those of pearl—still, if the natural fluids be withheld fram the lair, and in consequence becomes first deal and harsh, then gray, or falls off nature will be robbed of more than half its charms; as it is a sovereign remedy for those who are gray as well as those who are bald, all must see the propriety of making only such application to the hair and scalp pass accleditated to preserve but in a healthy state.

From the editor of the Real Estate Advertiser No. 2 School Street.

Boston, March 20, 1865.

Prof. Wood—Dear Sir—Having become prematurely quite gray, I was induced some 0 weeks since, to make a trial of your Hair Restorative. I have used less than two buttes, but the gray hairs have disappeared; and although my hair has not fully attained its original color, yet the change is gradually going and all have great hopes that in a short time my hair will be ast dark as formerly. I have also heen much gratified at the healthy moisture and vigor of the hair, which, before was harsh and dry, and it has ceased to come out as formerly.

Respectfully yours,

B. C. M. RUPP.

Milford, Worcester Co., Mass., Nov. 13th, 1855.

Prof. O. J. Wood—Dear Sir—I take pleasure in hearing voluntary testimony to the magic effects of your wonderful Hair Restor ative. As far back as 1856 my hair commenced falling off until the top of my scalp became to fall off for a great many years, notwith standing I have used many celebrated preparations for its restoration. Seeing your advertisement I was induced to give your article a trial, and to my utter astonishment I found after a few applications that my hair became firmly set and tassarded by very glossy and beautiful appearance; and at the time I had used a quart bottle, my bald head was cover ed over with a young and vigorous growth of hair, which is now from one to two inches in length, and growing very fast.

Apply Gubble H. June 27, 1856.

I have used Prof. O. J. Wond's Hair Restorative, and as I thought permanently gray, but by the use of his Restorative, it has resumed its original culor, and I have no doubt
